**Digital Solutions**

*Amphibian That Never Sleeps*  
**Bulfro Monitech Pvt. Ltd.**

**ULTRASONIC FLOW METER**  
**SYSTEM:**  
**TECHNICAL BROCHURE**

**Services:**

- Product & Solution Sales
- Installation
- Data Management and Security
- Maintenance & Services
- Water Legal Compliance

**Ultrasonic Flow Meter:**

The Bulfro Ultrasonic Flow Meter BMFM-XXUST-23 series is a cutting-edge solution for accurate and efficient flow measurement. Built-in compliance with ISO 4064:2014, this advanced meter utilizes ultrasonic transit-time measurement technology, delivering unparalleled precision, low power consumption, and exceptional stability.

**Key Features:**

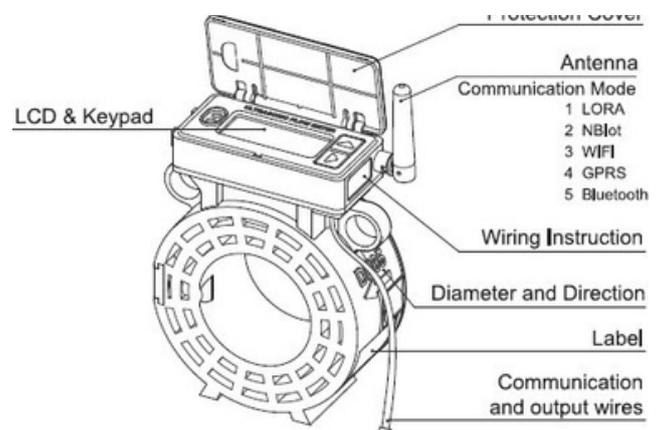

- **High Measurement Accuracy:** Ensure precise flow measurement for reliable data in diverse applications.
- **Ultrasonic Transit-Time Measurement:** Utilize cutting-edge ultrasound tech for accurate flow rate analysis.
- **ISO 4064:2014 Compliance:** Manufactured in adherence to ISO4064:2014 standards for global reliability.
- **Low Power Consumption:** Optimize energy usage, promoting eco-friendliness.
- **Stability and Reliability:** Deliver consistent performance, even in demanding conditions.

## Technical Parameters:

Performance	Parameters
Measurement Range Ratio	63:1
Working Pressure	< 1.6 Mpa
Temperature	T30
Working Environment	-25°C -55°C,P68 Protection
Pressure Loss	$\Delta P$ 10
Power consumption	<0.1Mw
Power Supply	3.6V 4Ah lithium battery

## Ultrasonic Flow Meter Parts Description:

- As per CGWA Specifications
- NABL Test Certificate
- GPRS Telemetry System with SIM Card
